FINANCIAL SECTION

To The Honorable County Judge and
Commissioners Comprising the
Commissioners' Court of
Lamb County, Texas

INDEPENDENT AUDITORS' REPORT

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lamb County, Texas, as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise Lamb County, Texas's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Lamb County, Texas, as of September 30, 2024, and the respective changes in financial position, and, where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Lamb County Hospital, which is both a major fund and 100 percent, respectively, of the assets, net position, and revenues of the business-type activities. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Lamb County Hospital, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lamb County, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lamb County, Texas's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lamb County, Texas's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lamb County, Texas's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule, the schedule of changes in net pension liability and related ratios, and the schedule of employer contributions on pages 38 – 42 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The County has omitted the Management's Discussion and Analysis (MD&A) that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. The MD&A, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The independent auditors' opinion is not affected by the omission of the MD&A.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lamb County, Texas's basic financial statements. The accompanying combining nonmajor and custodial fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 20, 2025, on our consideration of Lamb County, Texas's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Lamb County, Texas's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lamb County, Texas's internal control over financial reporting and compliance.

LAMB COUNTY, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL
FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2024

Amounts reported for governmental activities in the Statement of Activities are different because:

| | |
|--|----------------------------|
| Net change in fund balances - total governmental funds: | \$ 1,782,780 |
| Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. | |
| This is the amount by which capital outlays, \$2,327,158, exceeded depreciation, \$1,056,526, in the current period. | 1,270,632 |
| In the Statement of Activities, only the gain on the disposition of capital assets is reported. However, in the governmental funds, the proceeds from the disposition, if any, increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets disposed of. | (116,866) |
| The Statement of Activities reports gains arising from the trade-in of existing capital assets to acquire new capital assets. Conversely, governmental funds do not report any gain or loss on a trade-in of capital assets. | 311,000 |
| Revenues in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. This amount represents the change in unavailable revenue. | (32,017) |
| In the Statement of Net Position, incurring debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayments of principal is an expenditure in the governmental funds, but reduces the liability in the Statement of Net Position. | |
| Debt issued or incurred: | |
| Leases and subscription liabilities | (487,112) |
| Principal repayments: | |
| Leases and subscription liabilities | 89,575 |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds: | |
| Accrued interest on debt, net change | (9,388) |
| Compensated absences, net change | 6,932 |
| Pension deferred outflows of resources | (329,321) |
| Pension deferred inflows of resources | 137,975 |
| Net pension asset, net change | 24,012 |
| Net pension liability, net change | 851,402 |
| Change in net position - governmental activities | <u><u>\$ 3,499,604</u></u> |

LAMB COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Lamb County, Texas (County) have been prepared in conformity with accounting principles generally accepted in the United States of America (generally accepted accounting principles) (GAAP) for local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant accounting and reporting policies of the County are described in the following notes to the financial statements.

A. Financial Reporting Entity

The County, incorporated in 1876, is a public corporation and political subdivision of the State of Texas. The County is governed by the Commissioners Court, composed of four County Commissioners and the County Judge, all of whom are elected officials.

The County provides a variety of services to advance the welfare, morale, comfort, safety and convenience of the County and its citizens.

The definition of the reporting entity is based primarily on the notion of financial accountability. The elected officials governing the County are accountable to their constituents for their public policy decisions, regardless of whether those decisions are carried out directly through the operations of the County or by their appointees through the operations of a separate entity. Therefore, the County is not only financially accountable for the organizations that make up its legal entity, but also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either, it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on the County.

On August 1, 1991, the County purchased all of the assets and assumed all of the liabilities of the Lamb County Hospital d/b/a Lamb Healthcare Center (the "Hospital"). The Hospital is an enterprise fund of the County. It was established for the purpose of maintaining a system to provide hospital and medical care to the residents of Lamb County, Texas. The Hospital is supported, in part, by subsidies from the County with a budgeted portion of the ad valorem tax revenue assessed by the County each year. The Hospital has elected to prepare separate financial statements for the year ended September 30, 2024, which include a complete set of financial statements and footnote disclosures. A copy of the annual financial statements may be obtained by contacting the Administration of Lamb Healthcare Center at 1500 South Sunset, Littlefield, Texas, 79339.

B. Financial Statement Presentation, Measurement Focus and Basis of Accounting

Government-Wide Statements

Government-wide financial statements consist of the Statement of Net Position and the Statement of Activities. These statements report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenue, are reported separately from *business-like activities*, which rely to a significant extent on fees and charges for support.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Under this measurement focus, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of cash flows. Property taxes are recognized as revenues in the year for which they are levied. Fines and forfeitures are recognized when they have been assessed and adjudicated and earned. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

B. Financial Statement Presentation, Measurement Focus and Basis of Accounting – Continuation

Government-Wide Statements – Continuation

The Statement of Activities demonstrates the degree to which the direct expenses of the County's programs are offset by those programs' revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Certain indirect costs have been included as part of the program expenses reported for the various functional activities. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the program and 2) grants and contributions that are restricted to meeting the operational and/or capital requirements of a particular program. Taxes and other items not included among program revenue are reported instead as *general revenue*. In miscellaneous general revenues are non-program specific contributions including capital assets contributions.

Fiduciary funds are excluded in the government-wide presentation of the financial statements.

Fund-Level Statements

All governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The County considers property taxes and other revenues as available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. Grant and entitlement revenues are also susceptible to accrual. These funds are accounted for on a spending "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Any proprietary funds, including internal service funds, and fiduciary funds, including custodial funds, are accounted for using the accrual basis of accounting. Revenues are recognized when earned, and expenses when they are incurred. Claims incurred but not reported are included in payables and expenses. These funds are accounted for using an economic resources measurement focus.

The accounts of the County are organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. Government resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled.

The County reports the following major governmental funds:

The **General Fund** is the general operating fund of the County. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property taxes, charges for services, intergovernmental revenues and investment of idle funds. Primary expenditures are for administrative, judicial, public facilities, public safety, public service, road and bridge, and capital acquisition.

Fund-Level Statements – Continuation

The **Lamb Healthcare Center – County** is used to account for the ad valorem taxes collected and cash balances held on behalf of the Lamb County Hospital, to subsidize the Hospital's annual operations.

The **American Recovery Grant** is used to account for funds received through various federal agencies passed through the State of Texas. The pass through grant is to be used to reimburse the County for qualified incurred costs and lost revenue related to the COVID-19 pandemic.

Additionally, the County reports the following funds types:

Proprietary Fund – *Lamb County Hospital* accounts for the resources used to maintain a system to provide hospital and medical care to the residents of Lamb County, Texas.

Special Revenue Funds – *Special Revenue Funds* account for the proceeds of specific revenue sources (other than fiduciary funds) that are legally restricted to expenditures for specified purposes.

Custodial Funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments and other funds. Custodial funds do not involve a formal trust agreement.

C. Use of Restricted Assets

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity

1. Deposits and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and deposits within public fund investment pools. Statutes authorize the County to keep funds in demand deposits, time deposits, or securities of the United States. The County's custodial banks are required to pledge for the purpose of securing County funds, securities of the following kind, in an amount equal to the amount of such County funds: bonds and notes of the United States, securities of indebtedness of the United States, bonds of the State of Texas, or of any county, city, or independent school district, and various other bonds as described in Texas Statutes. TexPool is duly chartered and administered by the Texas Treasury Safekeeping Trust Company and the portfolio normally consists of U.S. T-Bills or T-Notes, collateralized certificates of deposit, and repurchase agreements. The carrying value (cost) and market value are equal for these deposits.

The County is required by Government Code Chapter 2256, the Public Funds Investment Act ("Act"), to adopt, and publicize an investment policy. That policy must be written, primarily emphasize safety of principal and liquidity, address investment diversification, yield, and maturity and the quality and capability of investment management, and include a list of the types of authorized investments in which the investing entity's funds may be invested, and the maximum allowable stated maturity of any individual investment owned by the entity.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

1. Deposits and Investments – Continuation

The Act requires an annual audit of investment policies. Audit procedures in this area, conducted as a part of the audit of the basic financial statements, disclosed that in the areas of investment practices, management has reported and established appropriate policies. The County adheres to the requirements of the Act. Additionally, investment practices of the County are in accordance with local policies.

2. Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of inter-fund loans) or “advances to/from other funds” (i.e., the noncurrent portion of inter-fund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Accounts receivable from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the County. Program grants are recorded as receivables revenues at the time all eligibility requirements established by the provider have been met.

Reimbursements for services performed are recorded as receivables and revenues when they are earned in the government-wide statements. Included are fines and costs assessed by court action and billable services for certain contracts. Revenues received in advance of the costs being incurred are recorded as unavailable revenues in the fund statements. Receivables are shown net of an allowance for uncollectible accounts of \$7,298,150.

Payables consist of vendor obligations for goods and services as well as funds payable to others when the criteria for their release have been met.

3. Property Tax Calendar and Revenues

Property taxes are based on taxable value at January 1 and become due October 1 and past due after January 31 of the following year unless the half payment option is elected in which one-half the tax is due November 30, and the balance the following June 30. Tax collections after February 1 are treated as late payments and are subject to penalty and interest. Uncollected taxes from the current tax roll become delinquent on July 1 and are subject to additional penalties and interest. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. Property tax receivables for prior years' levies are shown net of an allowance for uncollectible accounts of \$438,973.

4. Restricted Assets/Funds

The following accounts reflect restricted status by third-party or statutory obligations for specific purposes:

- Other Non-Major Governmental fund balances (amounts restricted for other specific purposes such as management, preservation, and archiving of public records, enhancement of law enforcement operations with seized funds, maintenance of the commissary in the Sheriff's Department, personnel and security for the courthouse, technology requirements for the justice court, administration of juvenile probation programs, administration of drug and alcohol awareness programs, assisting in paying compensation for guardians or attorneys ad litem, administration of pre-trial diversion programs, defraying the County's voter registration expenses, and enhancement of the County Attorney operations with fees from processing dishonored and forged checks. All restrictions are enacted according to Texas statutes.)

5. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories in the governmental funds are recorded as expenditures when consumed rather than purchased. At September 30, 2024, inventories consisted of fuel, rock, and culverts in the road and bridge department.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The County uses the consumption method to record its prepaid items which requires reporting these items as assets and deferring the recognition of expenditures until the period in which prepaid items are used or consumed. In the fund financial statements, they are offset by a designation of no spendable fund balance which indicates they do not represent "available spendable resources".

6. Capital Assets

Capital assets, which include land, buildings and improvements, equipment, and vehicles, are reported in the government-wide financial statements. According to the County's capitalization policy, capital assets, are defined as individual assets (or systems of assets) having a cost of \$5,000 or more and an estimated useful life in excess of two years. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

When capital assets are purchased, they are capitalized and depreciated in the government-wide financial statements. Capital assets are recorded as expenditures of the current period in the governmental fund financial statements.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated lives:

| | |
|----------------------------|--------------|
| Buildings and improvements | 7 - 50 years |
| Machinery and equipment | 7 - 15 years |
| General equipment | 5 - 20 years |
| Vehicles | 8 years |

LAMB COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will *not* be recognized as an outflow or resources (expense/expenditure) until then. The government has multiple items that qualify for reporting in this category. They are the contributions and other items related to the County's pension plan reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has two items that qualify for reporting in this category. One item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other items are related to the changes in the County's pension plan and are reported in the government-wide statement of net position.

8. Compensated Absences

A liability for unused vacation and comp time for all full-time employees is calculated and reported in the government-wide financial statements. For financial reporting, the following criteria must be met to be considered as compensated absences:

- leave or compensation is attributable to services already rendered
- leave or compensation is not contingent on a specific event (such as illness).

Per GASB Interpretation No. 6, liabilities for compensated absences are recognized in the fund statements to the extent the liabilities have matured (i.e. are due for payment). Compensated absences are accrued in the government-wide statements.

County employees (other than Sheriff's office employees) earn personal leave in varying amounts and do not earn sick leave. Unused personal leave may be accumulated up to 216 hours and is paid upon termination of employment. Sheriff office employees earn varying amounts of vacation time with a maximum accrual of 120 hours and an end of year carryover of 40 hours and is paid upon termination of employment. Sheriff office employees earn 3.08 hours of sick pay per period with a maximum accrual of 80 hours and an end of year carryover of 40 hours. Lamb County will not pay the employee for unused sick leave time accumulated. Also, in accordance with the Fair Labor Standards Act as it applies to local governments, non-exempt county employees are granted compensatory time for hours worked beyond their regular working hours. Accumulated compensatory time is also paid upon termination of employment.

D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

9. Pensions

For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the County's Texas County and District Retirement System Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balance for governmental funds can consist of the following:

Non-spendable Fund Balance – includes amounts that cannot be spent because they: (a) are not in spendable form (e.g., inventories and prepaid items); (b) are not expected to be converted into cash within the current period or at all (e.g., long-term receivables); or (c) are legally or contractually required to be maintained intact (e.g., the non-spendable corpus of an endowment)

Restricted Fund Balance – includes amounts subject to usage constraints that have either been: (a) externally imposed by creditors (e.g., through a debt covenant), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – includes amounts that are constrained to use for specific purposes pursuant to formal action of the Commissioners' Court. These amounts cannot be used for other purposes unless the Court removes or changes the constraints via the same type of action used to initially commit them.

Assigned Fund Balance – includes amounts intended by the County for use for a specific purpose but which do not qualify for classification as either restricted or committed. The intent can be expressed by the Commissioners' Court or by a Court designee (e.g., a department head). This classification applies to the positive unrestricted and uncommitted fund balances of all governmental funds except the General Fund.

Unassigned Fund Balance – this classification applies to the residual fund balance of the General Fund and to any deficit fund balances of other governmental funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

11. Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three categories.

Net Investment in Capital Assets – This amount consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds.

Restricted Net Position – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments, enabling legislation, or constitutional provisions.

Unrestricted Net Position – This amount includes all net positions that do not meet the definition of “net investment in capital assets” or “restricted net position.”

12. Fund Balance Policies

When the County incurs an expenditure for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first, then unrestricted funds. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Committed fund balance amounts may be used for other purposes with appropriate action by the Commissioners’ Court to either modify or rescind a fund balance commitment. Commitments are typically done through adoption and amendment of the budget.

The County’s highest level of decision-making authority is the Commissioners’ Court. The Court has not yet delegated the authority to assign fund balance amounts to a specific individual nor does it have a policy to authorize the assignment of fund balances outside the Court.

13. Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to September 1, the proposed budget is submitted to the Commissioners' Court.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY – Continuation

A. Budgetary Information – Continuation

2. The Commissioners' Court provides for a public hearing on the County budget subsequent to August 15, and prior to the levy of taxes by the Commissioners' Court.
3. Prior to October 1, the budget is legally adopted by order of the Commissioners' Court for the General Fund and all non-major special revenue funds.
4. The budget is prepared by fund and department with the legal level of control at the department level. Administrative control is maintained through the establishment of more detailed account or object class budgets within the departments. Emergency expenditures to meet unusual and unforeseen conditions which could not, by reasonable diligent thought and attention, have been included in the original budget, whereby total expenditures of a department have been increased must be authorized by the Court as emergency amendments to the original budget. Management may not amend the budget at any level without approval of the Commissioners' Court. The Court has the authority to make such changes in the budget, in its judgment of facts, the law warrant, and the interest of the taxpayers demand, provided the amounts budgeted for the current expenditures from the various funds for the County do not exceed appropriations, including fund balances from the prior fiscal periods. Amounts shown in the financial statements represent the original budget amounts and all supplemental appropriations. Supplemental appropriations to the original adopted budget are in the Final Budgeted Amounts column of the Budgetary Comparison Schedule for the General Fund.
5. The budget for the General Fund is adopted on a basis consistent with GAAP on the modified accrual basis of accounting on an annual basis.
6. Formal budgetary integration on an annual basis is employed as a management control device during the year for the General Fund.
7. All appropriations, except those in grant funds, lapse at the end of the County's fiscal year and may be re-budgeted the next year.

NOTE 3 – DEPOSITS AND INVESTMENTS

Following is a reconciliation of the County's cash and deposit balances as of September 30, 2024:

Cash and deposit balances consist of:

| | |
|------------------|--------------|
| Petty cash funds | \$ 400 |
| Bank deposits | 4,681,272 |
| | <hr/> |
| Total | \$ 4,681,672 |
| | <hr/> <hr/> |

Cash and deposit balances are reported in the basic financial statements as follows:

Government-wide Statement of Net Position:

| | |
|---|--------------|
| Unrestricted - Governmental activities | \$ 3,792,241 |
| Fiduciary Funds Statement of Net Position | 889,431 |
| | <hr/> |

| | |
|-------|--------------|
| Total | \$ 4,681,672 |
| | <hr/> <hr/> |

Custodial credit risk – deposits. As of September 30, 2024, the carrying amount of the County's deposits with financial institutions was \$4,681,272 and the bank's balance was \$5,056,001. Of the bank balance, \$981,574 was insured through the Federal Depository Insurance Corporation (FDIC) and the remaining \$4,074,427 was collateralized with securities held by the pledging institution's agent in the County's name.

Interest rate risk is the risk that adverse changes in interest rates will result in an adverse effect on the fair value of an investment. The County manages its exposure to interest rate risk by maintaining its cash in interest-bearing demand accounts, or in certificates of deposit with weighted average maturities of one year or less.

Credit risk is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. State law and County policy limit investments in local government pools to those rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service.

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single insurer. As of September 30, 2024, 100% of the County's carrying value of cash was deposited with the County's depository bank and was adequately secured as described above.

NOTE 4 – PROPERTY TAX

The State of Texas Constitutional tax rate limit for both operations and debt service is \$.80 on each \$100 of assessed valuation. The tax rate on the 2023 tax roll was \$.746 per \$100, which means that the County has a tax margin of \$.054 per \$100 and could raise up to \$752,842 additional revenue from the 2023 assessed valuation of \$1,394,152,316 before the limit is reached.

Real and personal property values are assessed for the period January 1 to December 31, as of January 1 at which date property taxes attach as an enforceable lien on property. Taxes are levied by October 1 of the current year and are collected from October 1 to June 30 of the following year. Payments received after February 1 are considered late and are subject to penalty and interest. Taxes become delinquent on July 1 of the following year.

NOTE 6 – RETIREMENT PLAN

Plan Description: Lamb County provides retirement and death benefits for all of its employees, except temporary employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of several nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034 and is available at www.tcdrs.org.

Benefits Provided: The plan provisions are adopted by the governing body of the County (employer), within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 8 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by the County.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the County within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Employees Covered by Benefit Terms: At December 31, 2023, the following employees were covered by the benefit terms:

| | |
|--|----|
| Inactive employees or beneficiaries currently receiving benefits | 83 |
| Inactive employees entitled to but not yet receiving benefits | 90 |
| Active employees | 95 |

Contributions: The County has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the County based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the County is actuarially determined annually.

**LAMB COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS

NOTE 6 – RETIREMENT PLAN – Continuation

The County contributed using the actuarially determined rate of 11.55% with a supplemental rate of 2.48% for the months of the accounting year in 2023 and 11.47% with a supplemental rate of 2.56% for the months of the accounting year in 2024. The contribution rate payable by the employee members is 7.0% for fiscal year 2024 as adopted by the governing body of the County. The employee contribution rate and the employer contribution rate may be changed by the governing body of the County within the options available in the TCDRS Act.

Net Pension Liability: The County's net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date.

Actuarial Assumptions: The total pension liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

The demographic assumptions were developed from an actuarial experience investigation of TCDRS over the years 2017-2020. They were recommended by Milliman and adopted by the TCDRS Board of Trustees in December of 2021. All economic assumptions were recommended by Milliman and adopted by the TCDRS Board of Trustees in March of 2021. These assumptions, except where required to be different by GASB 68, are used to determine the total pension liability as of December 31, 2023. The assumptions are reviewed annually for continued compliance with the relevant actuarial standards of practice.

TCDRS system-wide economic assumptions:

| | |
|-----------------------------|-------|
| Real rate of return | 5.00% |
| Inflation | 2.50% |
| Long-term investment return | 7.50% |

The assumed long-term investment return of 7.5% is net after investment and administrative expenses. It is assumed returns will equal the nominal annual rate of 7.5% for calculating the actuarial accrued liability and the normal cost contribution rate for the retirement plan of each participating employer.

The annual salary increase rates assumed for individual members vary by length of service and by entry-age group. The annual rates consist of a general wage inflation component of 3.00% (made up of 2.50% inflation and 0.5% productivity increase assumptions) and a merit, promotion and longevity component that on average approximates 1.7% per year for a career employee.

Employer-specific economic assumptions:

| | |
|---|-------|
| Growth in membership | 0.00% |
| Payroll growth for funding calculations | 3.00% |

The payroll growth assumption is for the aggregate covered payroll of an employer.

NOTE 6 – RETIREMENT PLAN – Continuation

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2024 information for a 10-year time horizon.

Note that the valuation assumption for the long-term expected return is re-assessed in detail at a minimum of every four years, and is set based on a long-term time horizon. The TCDRS Board of Trustees adopted the current assumption at their March 2021 meeting. The assumption for the long-term expected return is reviewed annually for continued compliance with the relevant actuarial standards of practice. Milliman relies on the expertise of Cliffwater in this assessment.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

NOTE 6 – RETIREMENT PLAN – Continuation

- (1) Target asset allocation adopted at the March 2024 TCDRS Board Meeting.
- (2) Geometric real rates of return equal the expected return minus the assumed inflation rate of 2.2%, per Cliffwater's 2024 capital market assumptions.
- (3) Includes vintage years 2005-present of Quarter Pooled Horizon IRRs.
- (4) Includes vintage years 2007-present of Quarter Pooled Horizon IRRs.
- (5) Includes vintage years 2006-present of Quarter Pooled Horizon IRRs.

Discount Rate: The discount rate is the single rate of return that, when applied to all projected benefit payments results in an actuarial present value of projected benefit payments equal to the total of the following:

1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position is projected to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term rate of return, calculated using the long-term expected rate of return on pension plan investments.
2. The actuarial present value of projected benefit payments not included in (1), calculated using the municipal bond rate.

Therefore, if plan investments in a given future year are greater than projected benefit payments in that year and are invested such that they are expected to earn the long-term rate of return, the discount rate applied to projected benefit payments in that year should be the long-term expected rate of return on plan investments. If future years exist where this is not the case, then an index rate reflecting the yield on a 20-year, tax-exempt municipal bond should be used to discount the projected benefit payments for those years.

The determination of a future date when plan investments are not sufficient to pay projected benefit payments is often referred to as a depletion date projection. A depletion date projection compares projections of the pension plan's fiduciary net position to projected benefit payments and aims to determine a future date, if one exists, when the fiduciary net position is projected to be less than projected benefit payments.

The funding requirements under the employer's funding policy and the legal requirements under the TCDRS Act are such that a depletion is not projected to occur.

Since the fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the total pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. For GASB 68 this long-term assumed rate of return is net of investment expenses, but gross of administrative expenses. Therefore, we have used a discount rate of 7.60% which reflects the long-term assumed rate of return on assets for funding purposes of 7.50%, net of all expenses, increased by 0.10% to be gross of administrative expenses.

NOTE 11 – TAX ABATEMENTS

During the year ended September 30, 2016, Lamb County entered into a 10 year property tax abatement agreement with a business under the Texas Property Redevelopment and Tax Abatement Act. Under the Act, localities may grant tax abatement of up to 100 percent of a business' property tax bill for the purpose of attracting or retaining business within the jurisdictions. The abatement may be granted to any business located within or promising to relocate to Lamb County. To be eligible the Company agreed to construct improvements consisting of a wind power facility with a minimum of 10 megawatts and a currently anticipated capacity of 30 megawatts of overall Turbine Nameplate Capacity. The Chief Appraiser will determine the certified appraised value annually pursuant to the terms of the abatement under this agreement. The amount of the abatement will automatically be deducted from the property owner's tax bill. In the event of default the County shall use the certified appraised values which were abated to determine the taxes due, less any payments made at any time to the County. In addition to the commitments for eligibility the Company has agreed to make payments in lieu of taxes annually in the amount of \$2,000 per megawatt of turbine nameplate capacity during the abatement period. This resulted in payments in lieu of taxes for the current year of \$60,000.

NOTE 11 – TAX ABATEMENTS – Continuation

During the year ended September 30, 2016, Lamb County entered into a 10 year property tax abatement agreement with a business under the Texas Property Redevelopment and Tax Abatement Act. Under the Act, localities may grant tax abatement of up to 100 percent of a business' property tax bill for the purpose of attracting or retaining business within the jurisdictions. The abatement may be granted to any business located within or promising to relocate to Lamb County. To be eligible the Company agreed to make certain improvements to be located on land within the reinvestment zone, with such improvements generally described as rehabilitation of existing structures, construction of new structures, and the installation of new equipment and infrastructure necessary to produce powdered milk and other dairy products. The Chief Appraiser will determine the certified appraised value annually pursuant to the terms of the abatement under this agreement. The amount of the abatement will automatically be deducted from the property owner's tax bill. In the event of default the County shall use the certified appraised values which were abated to determine the taxes due, less any payments made at any time to the County.

During the year ended September 30, 2019, Lamb County entered into a 10 year property tax abatement agreement with a business under the Texas Property Redevelopment and Tax Abatement Act. Under the Act, localities may grant tax abatement of up to 100 percent of a business' property tax bill for the purpose of attracting or retaining business within the jurisdictions. The abatement may be granted to any business located within or promising to relocate to Lamb County. To be eligible the Company agreed to construct a solar powered ground mounted electric generation facility capable of generating and transmitting approximately 500 megawatts of electricity, but in no event less than 300 megawatts of electricity. The Chief Appraiser will determine the certified appraised value annually pursuant to the terms of the abatement under this agreement. The amount of the abatement will automatically be deducted from the property owner's tax bill. In the event of default the County shall use the certified appraised values which were abated to determine the taxes due, less any payments made at any time to the County. As of September 30, 2024 the construction on this project has not been completed.

For the fiscal year ended September 30, 2024, Lamb County abated property taxes totaling \$875,349 under this program, including the following tax abatement agreements:

- A 100 percent tax abatement to Blue Cloud Renewable Energy Project, LLC for eligible property in the reinvestment zone. The abatement amounted to \$136,349.
- A 50 percent tax abatement to Continental Dairy Facilities Southwest, LLC for eligible property in the reinvestment zone. The abatement amounted to \$739,000.

NOTE 12 – RISK MANAGEMENT

The County's major areas of risk management are: public officials', law enforcement, and automobile liability, general comprehensive liability and property damage, workers' compensation, and employee health insurance. The County has obtained insurance with an insurance company and a public entity risk pool in which all risk is transferred to those entities for all the above areas. The County pays a deductible per incident except on the employee health insurance in which the deductible is the responsibility of the employee. There have been no significant reductions in insurance coverage from the prior year and settlements have not exceeded insurance coverage for the current year or the previous three years.

PART II
COMPLIANCE

To The Honorable County Judge and
Commissioners Comprising the
Commissioners' Court of
Lamb County, Texas

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the major fund with its budgetary comparison, and the aggregate remaining fund information of Lamb County, Texas as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise Lamb County, Texas's basic financial statements and have issued our report thereon dated June 20, 2025. Our report includes a reference to other auditors who audited the financial statements of the Lamb County Hospital, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lamb County, Texas's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lamb County, Texas's internal control. Accordingly, we do not express an opinion on the effectiveness of Lamb County, Texas's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lamb County, Texas's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an

opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To The Honorable County Judge and
Commissioners Comprising the
Commissioners' Court of
Lamb County, Texas

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE FOR THE U.S. DEPARTMENT OF TREASURY
CORONAVIRUS STATE AND LOCAL FISCAL RECOVERY FUNDS PROGRAM (CSLFRF) REQUIREMENTS
FOR AN ALTERNATIVE CSLFRF COMPLIANCE EXAMINATION ENGAGEMENT

We have examined Lamb County, Texas's compliance with the compliance requirements "activities allowed or unallowed" and "allowable cost/cost principles" (the specified requirements) as described in Part IV "Requirements for an Alternative Compliance Examination Engagement for Recipients That Would Otherwise be Required to Undergo a Single Audit or Program-Specific Audit as a Result of Receiving Coronavirus State and Local Fiscal Recovery Funds" of the CSLFRF section of the 2022 OMB *Compliance Supplement* (referred to herein as "Requirements for an Alternative CSLFRF Compliance Examination Engagement") during the year ended September 30, 2024. Management of Lamb County, Texas is responsible for Lamb County, Texas's compliance with the specified requirements. Our responsibility is to express an opinion on Lamb County, Texas's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with the attestation standards established by the AICPA; the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in the "Requirements for an Alternative CSLFRF Compliance Examination Engagement." Those standards and requirements require that we plan and perform the examination to obtain reasonable assurance about whether Lamb County, Texas complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether Lamb County, Texas complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on Lamb County, Texas compliance with specified requirements.

In our opinion, Lamb County, Texas complied, in all material respects, with the specified requirements referenced above during the year ended September 30, 2024.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud, and noncompliance with provisions of laws, regulations, contracts or grant agreements that have a material effect on Lamb County, Texas's compliance with the specified requirements and any other instances that warrant the attention of those charged with governance. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions. We performed our examination to express an opinion on Lamb County, Texas's compliance with the specified requirements and not for the purpose of expressing an opinion on the internal control over the specified

requirements or on compliance and other matters; accordingly, we express no such opinions. The results of our tests disclosed no matters that are required to be reported under *Government Auditing Standards*.

Intended Purpose

The purpose of this examination report is solely to express an opinion on whether Lamb County, Texas complied, in all material respects with the specified requirements referenced above during the year ended September 30, 2024. Accordingly, this report is not suitable for any other purpose.
